

Privacy statement:

Welcome to Elitesoft. Your privacy is very important to us. Elitesoft is committed to protecting your privacy and also is committed to the best and fully transparent privacy practices for our customers that are using our tools and websites.

Non-Personally Identifying data:

Elitesoft collects non-personally identifying information that web browsers typically make available, as well as App performance related usage and performance data.

Personally-Identifying data:

We collect the following:

- Potentially personally identifying information like IP addresses of users.
- Data provided through registration process

Third party service partners:

Most of the collected data (personally identifying and non-personally identifying) are obtained via third party service partners

Your customer's business data:

Whisper CRM is a desktop tool where all your Customer's data (contacts and messages) are stored locally. Some Customers data is obtained via third parties are only relevant to E-catalog and V-business cards services.

Data Usage:

All the collected data are either essential to Whisper CRM service provisioning or are being analyzed to improve the service. No customer data is shared with any third party outside this context.
